## PROFESSIONAL & ACADEMIC SUMMARY

Civil Engineering student (UITS, 42nd batch) building an interdisciplinary profile across infrastructure, sustainability, and technology. Early academic record combined with international coursework from UNESCO/IHE Delft, IAEA, IFAD, UNDP, and UNU-IAS reflects a consistent, self-directed interest in global engineering and development challenges. Actively developing applied skills in web development, data-driven decision-making, and AI-assisted tools alongside core Civil Engineering study, with the long-term goal of working at the intersection of infrastructure, sustainability, and technology. Seeking undergraduate, scholarship, and research opportunities that support this interdisciplinary direction.

---

## EDUCATION

### University of Information Technology & Sciences (UITS)

*B.Sc. in Civil Engineering | 42nd Batch | Joined June 2024*

- Completed 3 semesters; reached the end of the 4th-semester period (4th semester not completed/taken).
- First-semester CGPA: 3.86

### Dhaka College

Higher Secondary

*Completed 2021*

- GPA: 5.00 / 5.00

### Rafiqul Islam School & College

Secondary School

*Completed 2019*

- GPA: 5.00 / 5.00

---

## RESEARCH INTERESTS

Civil & Structural Engineering • Construction Engineering • Infrastructure Engineering • Sustainable Engineering • Project Management • Artificial Intelligence in Civil Engineering • Software-Enabled Engineering • Data-Driven Decision-Making • International Development & Sustainability • Entrepreneurship

---

## PROJECTS

### REDDROP — Blood Donor & Receiver Web Application

- Designed a web-based platform connecting blood donors and receivers, with Donor, Receiver, and Admin roles.
- Incorporated a 90-day donation interval rule to reflect real-world donation safety guidelines.
- Built without a signup requirement, per the project specification, to reduce friction for users.

Academic / independent project

### AIDHER-BD

- Explored a predictive concept for emergency response, focused on algorithmic approaches to improve response outcomes.

Concept / early-stage project

### University Portfolio Website

- Built a personal academic portfolio website to present activities, certificates, projects, and research interests.

### Networking Practical Work — Cisco Packet Tracer

- Completed practical networking exercises and project work using Cisco Packet Tracer.

### FreeCodeCamp — Mean-Variance-Standard-Deviation Calculator

- Built a Python-based statistics calculator as part of FreeCodeCamp's curriculum.

## INTERNATIONAL CERTIFICATES & PROFESSIONAL DEVELOPMENT

---

*Selected coursework from internationally recognized organizations:*

### UNESCO / IHE Delft

Water Diplomacy and Transboundary Aquifer Management — Completed 29 August 2026

### IAEA — *International Atomic Energy Agency*

Approaches and Methods for Prospective Radiological Environmental Impact Assessment — Completed 31 August 2026

### IFAD — *International Fund for Agricultural Development*

SUSTAIN 2 MOOC — Environmental, Social and Climate Standards

### UNDP Learning Hub — *United Nations Development Programme*

Preventing Fraud and Corruption

### UNU-IAS — *United Nations University — Institute for the Advanced Study of Sustainability*

[Course / certificate title]

### NASA

International Observe the Moon Night 2026 — Certificate of Participation

Planetary Defender — Quiz Certificate

### Simplilearn SkillUp

Introduction to Prompt Engineering — 16 January 2025 | Certificate Code: 7781349

### Saylor Academy

BUS607: Data-Driven Decision-Making — 40 hours, 4 CEUs — Issued 1 July 2026 | Certificate ID: ...7385MS

### [ICT-Related Certificate]

[Course / issuing body / date]

## INTERNATIONAL COMPETITIONS & ACADEMIC PARTICIPATION

---

- International Research Competition / IRCHO — Participant
- UBB International Student Competition — Participant
- IMEO — Participant
- IAOC — Participant
- IOOVC — Participant
- International Essay Writing Competition — Participant | [Competition Name] | [Organizer] | [Year]

## TECHNICAL SKILLS

---

### Programming & Web Development

- Python (beginner–intermediate)

- HTML, CSS, and web development fundamentals
- Web application development (project-based)

### **Tools & Environment**

- VS Code | XAMPP / Apache environment | Cisco Packet Tracer

### **Applied / Analytical**

- Prompt engineering fundamentals
- Data-driven decision-making
- Basic programming and computational thinking

## **ADDITIONAL TRAINING**

---

### **Youth Development / Jubo Unnoyon — Computer Training**

- Completed January – June 2023

## **ACADEMIC / PROFESSIONAL INTERESTS**

---

Currently developing knowledge in Civil Engineering project management, including:

- Earned Value Management (EVM): Planned Value, Earned Value, Actual Cost
- Critical Path Method, Baseline, and Slack / Float analysis
- Bill of Quantities (BOQ) and construction resource planning (manpower, material, machinery)

Pursued as independent / academic learning, not professional work experience.

## **LANGUAGES**

---

- Bengali — Native
- English — [Proficiency level, e.g., Professional Working Proficiency]

Signature

A handwritten signature in black ink, featuring a large, stylized 'O' or 'D' shape with a horizontal line extending to the right.
